- iv) Winter Resilience - via Roads Dept. Grit/salt bins - shovels?

Westmuir Community Resilience Centre – 2022

This Project, managed by the Village Hall Committee and Westmuir Development Trust is making good progress. Changing weather patterns have identified a need for communities to prepare for local emergencies such as Power Outages caused by severe storms. Westmuir has the largest population in the KLWCC area and most are within 20 minutes walking distance of the Hall. **Volunteers** for the Westmuir Resilience Team will be most welcome. Please just add your name to the **Volunteers Register** which will be available in the Hall.

“Let us know who to help or keep a neighbourly eye on”

Resilience Teams are encouraged to pre-identify village residents who are vulnerable (be it age or Disability based) in order that hot drinks can be provided and to ensure that individuals are coping when Local Emergencies occur. Please help by providing details in the reply slip below and returning it to the Village Hall on Sunday afternoon, **26th June**. Ask a neighbour to help deliver slip if mobility is an issue.

Reply slip from Residents:
