## Walk Description

Cross the road from the car park and follow the path in a NW direction into the Kirriemuir Den. The path follows the Gairie Burn past the Den Keeper's house. A choice of paths enables either a low or high level walk to a waterfall at 378 542. From the waterfall continue up some steps and turn left to reach a road at 377 543. Turn right and walk 50 metres on a pavement towards a junction at 378 544. Cross the road and pass through a gate to reach a sign post that indicates 2 km to the RSPB Reserve at Kinnordy. Follow a track (which can be muddy after rain) on the left side of the Gairie Burn. The track passes through woodland as it meanders towards Kinnordy Loch. The track crosses two bridges and after 2 km the East Hide (365 541) appears next to the loch on the right. From this hide a track bends to the right and leads to the Central Hide near the Reserve's main car park at 362 540. Leave the car park and turn right onto the B951 Glenisla road. Walk W for 650 metres and turn left onto a minor road that rises gently to reach the crossing of two tracks at 359 531. Turn left here and follow this track past Herdhillmuir Farm on the left at 370535. Ignore tracks to the right at 368 534 and the left at 370 535. Continue straight ahead until you reach another track at 373 537. Turn right and follow this track past a joiner's workshop until the A926 is reached at 376 535. Turn left and follow this road for 460 metres to reach a junction at 380 537. Cross the junction and continue straight ahead down the road as it descends to the starting point car park on the right.
